

Annual Report 2020-2021

Yolo County Resource Conservation District

The Yolo County Resource Conservation District (YCRCD) serves over 650,000 acres, including diverse agricultural operations, rangeland, public open space, and developed areas and municipalities. The YCRCD has accomplished a number of successes in improving water quality, addressing water conservation issues in urban and rural areas, preserving and restoring habitat, and developing new ways of achieving conservation goals. The YCRCD uses a model of cooperation and voluntary action instead of regulation to solve complex local, regional, and statewide issues. All our activities of the past year bear some stamp of collaboration or partnership, which has been critical to their success. Our major projects and programs that have furthered YCRCD's goal of promoting voluntary land stewardship in Yolo County include:

Woolly sunflowers and Red Maid wildflowers in the North Davis Upland Habitat Restoration Site.

CITY OF DAVIS HOWAT RANCH CARBON FARM PLAN

Development of a Carbon Farm Plan (CFP) for the City of Davis Open Space Howat Ranch that focuses on climate resilient agricultural practices for climate change mitigation by storing carbon while maximizing other benefits such as wildlife habitat. Implementation of the CFP to follow.

FIRE SAFE COUNCIL

A countywide collaborative consisting of close to thirty member organizations from all over Yolo County including two local Fire Safe Councils focused on planning, implementation, and funding for wildfire-related work.

WEED MANAGEMENT AREA

Development and implementation of an ecological and integrated approach for the control of noxious weeds and other invasive non-native plants led in collaboration with Yolo County Department of Agriculture.

PUTAH-CACHE WATERSHED ARUNDO PROGRAM

Watershed-scale eradication of *Arundo donax* (Giant Reed) and creek riparian restoration for streamflow and habitat improvement.

WESTSIDE SACRAMENTO IRWMP

Administration and coordination for the implementation of the Westside Sacramento Integrated Regional Water Management Plan.

YOLO BYPASS WILDLIFE AREA - AG LEASE and HABITAT

Ag lease management services for the California Department of Fish and Wildlife and wildlife habitat improvements in the Yolo Bypass Wildlife Area.

YOLO CREEK AND COMMUNITY PARTNERSHIP

On-farm restoration and habitat conservation projects in Yolo County's agricultural community, in partnership with the Center for Land-Based Learning, Putah Creek Council and Point Blue Conservation Science.

HIGHLIGHT OF ACCOMPLISHMENTS

- \$175K awarded for outreach and grant writing support for the Yolo County Fire Safe Council
- Over 3.5 miles of native plant and wildlife hedgerows
- 20 acres of wildland area treatment of noxious weeds
- 1,037 native trees and shrubs planted
- 16 acres of habitat improvements
- 4,600 grass and sedge plantings implemented
- 38 tonnes of CO₂ sequestered
- 4 community volunteer days with Putah Creek Council
- 12 SLEWS field days with local community volunteers

Yolo County Resource Conservation District acts as a central hub for conservation, connecting our community and individuals with the technical, financial and educational resources they need.

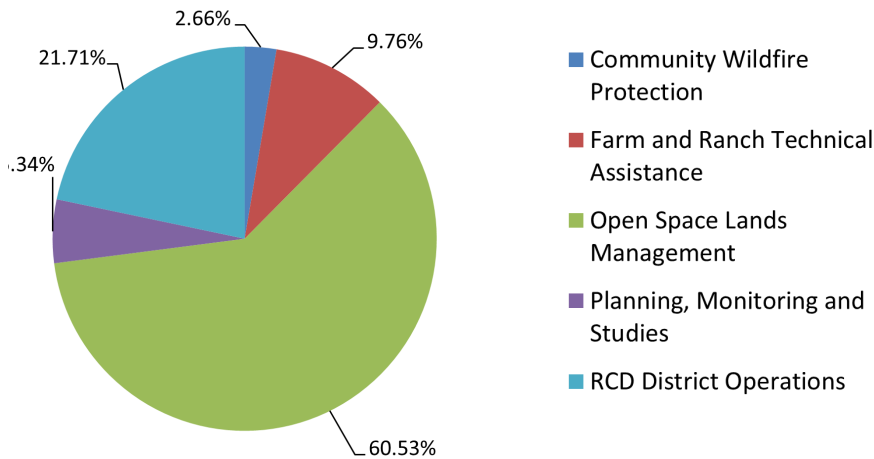

Yolo County Resource Conservation District

2020-2021 AT A GLANCE

The YCRCD Strategic Plan guides district activities to address conservation issues in Yolo County. Activities this year focused primarily on biodiversity, water conservation and water quality, riparian ecosystems, soil health and climate.

PROJECTS AND PROGRAMS BY TYPE

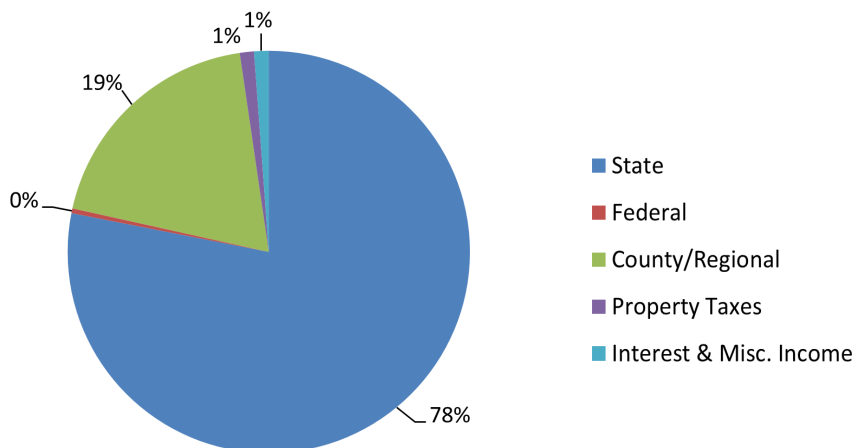

As a Special District, the YCRCD is subject to state transparency and accountability laws. The Brown Act and Division 9 of the California Public Resource Code require public meetings, open records, annual audits and financial reporting to the State Controller's Office. Our income and expenses for the Fiscal Year 2020-2021:

EXPENSES

Personnel	\$802,194
Subcontractors, Field Supplies, and Equipment	\$1,119,863
Office (rent, phone, IT)	\$63,602
Workforce Development	\$23,245
Insurance, Audit, Legal	\$38,577
Accounting Reconciliation	\$18,116
Total	\$2,065,597

INCOME SOURCES

State	\$1,656,011
Federal	\$8,158
County/Regional	\$407,418
Property Taxes	\$24,134
Interest & Misc. Income	\$24,899
Total	\$2,120,620

District offices are located at 221 West Court Street in Woodland.

MISSION

To protect, improve, and sustain the natural resources of Yolo County.

BOARD OF DIRECTORS

Mark Cady, President
 Mike Turkovich, Vice President
 Anya Perron-Burdick, Secretary
 Miranda Driver
 Eric Willson
 Jake Campos (Associate)

STAFF

Alli Permann, Outreach Coordinator
 Amy Williams, Project Manager
 Bailey Adams, Field Manager
 Brandon Baker, Restoration Field Lead
 Connor Higgins, Mobile Irrigation Lab Manager
 Grace Ferguson, Project Manager
 Greg Palaez, Project Manager
 Heather Nichols, Executive Director
 Joaquin Pastrana, GrizzlyCorps Fellow
 Kate Reza, Program Manager
 Kenya Oto, Field Technician
 Lani Fulcher, Office Manager
 Sue McCloud, Financial Manager
 Tanya Meyer, Senior Program Manager

Many of our projects reflect a cooperative effort with the USDA Natural Resources Conservation Service.

NRCS STAFF

Phil Hogan, District Conservationist
 Nick Gallagher, Rangeland Specialist
 Corey Shake, Partner Biologist
 Brandi Murphy, Soil Conservationist
 Sara Lipschutz, Soil Conservationist
 Shayla Ramos, Wildlife Biologist
